# YUNO KIOSK 17/22/27"

compact, multi-application  
integrated system

All in one OEM & POS  
system for all vertical  
kiosk applications

**YUNO Kiosk** is a robust and compact equipment, to suit the many applications of the OEM, Kiosk and POS vertical sectors.

This fanless high-performance hardware, fitted either with a Kaby Lake 3965U, i3 71000U or i5-7300U platform, is available in 2 wide (16/9) formats of 21.5" and 27,1" - and in a 4/3 17" format as well.

It is equipped with a shock- and scratch-proof, multi-touch, projected, capacitive screen (PCAP technology).

Very flexible, the YUNO Kiosk 17, 21,5 & 27,1" range is proposed with VESA fixings, for easy integration, wall mount and kiosk installations.

YUNO Kiosk 21,5" offers small openings (hatches) on its lateral sides, which have been designed to accommodate associated peripherals\* that can be easily attached (MSR and barcode readers, finger print reader, etc).

These hardware feature a 128 GB flash disk (SSD. M2) and stand up to dirt in the toughest settings (fat, crumbs, dust, splashes and leftovers...).

They integrate energy efficient processors and a heat-dissipating aluminium structure, ensuring compliance with environmental standards (low carbon footprint).

The YUNO Kiosk 17, 21,5 & 27,1" are accessible products, whose many features (technology, ergonomics, innovation and design) make them good value for money. They constitutes a sensible, cost-effective and long-term investment for your IT equipment.

*\*same attachable peripherals as in the YUNO standard version*
